# BEHAN KUMAR

## FULL-STACK WEB DEVELOPER (MERN + AWS)

## PROFILE

Passionate and self-motivated MERN stack developer with strong fundamentals in frontend and backend development. Proficient in JavaScript, React.js, Node.js, Express, and MongoDB, with hands-on practice in building full-stack applications. Actively learning real-time communication and deployment using tools like Socket.IO and AWS. Eager to work on real-world projects and contribute to dynamic, growth-driven teams. Open to freelance and junior developer roles to apply and expand my technical expertise.

## WORK EXPERIENCE

### Self-Taught Web Developer - MERN Stack

Remote | Jan 2025 - Present

- Building personal full-stack projects using MongoDB Atlas, Express, React, and Node.js
- Currently developing a real-time chat app using Socket.IO and Redux Toolkit (in progress)
- Built and deployed a personal portfolio using AWS (EC2, S3, Route 53, CloudFront)
- Created secure login systems using JWT and developed REST APIs with Express
- Practicing database modeling and data management using MongoDB Atlas

### Brandora Agency - Full-Stack Web App

Personal Project | 2025

- Designed and developed a modern digital agency website using React, Material UI (MUI), and GSAP for animations
- Added an interactive background video for a dynamic and engaging user experience
- Built and deployed frontend on Vercel with fully responsive layouts
- Developed backend APIs using Node.js and Express, hosted on Render
- Used MongoDB Atlas to store and manage data for contact forms and service listings

## INTERESTS

- Watching animated shows like Motu Patlu, Chhota Bheem, and other childhood cartoons
- Exploring and imagining new tech ideas and app concepts in my free time
- Enjoy learning how things work, especially in web and military technology
